Address
Faribault, Minnesota

Skills

Operations
Process operation, startups, changeovers, shutdowns, readings and adjustments

Troubleshooting
Abnormal conditions, equipment and process problems, maintenance coordination

Sanitation & Testing
CIP, titrations, sampling, pre-op checks

Training & Coverage
Operator training, fill-in supervision, independent cross-trained coverage

Education & certification

Industry Analyst
Raw-milk sampling and antibiotic testing

B.S. Computer Science
Rasmussen University · in progress, Oct 2026–Present

Culinary Arts
Le Cordon Bleu, Mendota Heights

Systems

Wonderware · SAP

Experience

Resource Operator II
AGROPUR
Feb 2026–Present
Le Sueur, MN

- Cross-trained coverage operator in a cheese and whey plant on 12-hour 2-2-3 nights, qualified to run HTST and packaging, starter, the make room and intake independently.
- Take frequent process readings and adjust to product and conditions; monitor whey, permeate and lactose flows; catch deviations and troubleshoot at operator level.
- Run startups, CIP circuits and Master Sanitation work; perform titrations, micro and analytical sampling and pre-op checks.
- Train other operators, sample and antibiotic-test incoming raw milk as an Industry Analyst, and provide fill-in supervisory coverage.

Production Specialist
POST CONSUMER BRANDS
Jul 2019–Jun 2024
Northfield, MN

- Operated a multi-stage corn-flake line on 12-hour shifts in a high-volume cereal plant: flaking mills, dryers and downstream processing.
- Troubleshot feeders, mills and rolls at operator level by working out how feed, roll condition, nip pressure, temperature and throughput affected each other.
- Ran startups, changeovers and shutdowns, and monitored temperatures, equipment loads, feed and product flow, adjusting settings to hold product quality.
- Responded to alarms, process deviations and equipment faults, coordinated with maintenance, and restored stable production after upsets.
- Trained and coached operators on the process, the equipment and troubleshooting.

Operations Lead / Trainer
HERDA'S MEAT PROCESSING
2012–2019
Faribault, MN

- Managed day-to-day operations of a custom beef and pork processing business, coordinating production, employees and customer work from intake through finished orders.
- Scheduled and trained employees, set daily production priorities, and handled customer orders, payments and supply ordering.
- Performed the full process hands-on: slaughter, carcass breakdown, custom cutting, sausage and bacon production, packaging and sanitation.

Processing Operator
INNOVATIVE FOOD PROCESSORS
2008–2012
Faribault, MN

- Set up, operated and cleaned dry-food and powder-processing equipment; calculated production-order quantities and yields; handled raw materials and finished product.

Selector
MCLANE
2006–2008
Northfield, MN

- Selected and palletized customer orders in a high-volume distribution center to quantity and accuracy standards.
